Keep them under supervision for a while.
We learn by
guidance and repetition.
We act habitually.
But the feeling...
...as a human condition,
naturally before the supernatural.
- Yes, Laura.
- You said that we are born with minds as a liability?
- Is.
- Why? What is the purpose?
- Without the research would cease.
- I do not take.

is a man without guilt.
So, calculate it yourself.

Who are you?
Who are you?
...Who are you? Who?
What was that we were looking for?
He said that there was a box here
that we would open up together.
- And look at, a box.
- Should we not wait for Beth?
- She is on the veranda.
- Can we not just open it and bury?
I have other things to do.
"My dear friends. "
"May God forgive me for my weakness-"
"- but I can not wipe out
memories plaguing my soul. "
"I regret the promise of having contact
In the course of this 20 hard years, but now we are-"
"- and... will always be together. "
"For always. "
"Pipstoppen may be my
nightmares to become more berusande. "
"Be strong when I read, infected. "
"My last wish that you
Finally, should share together. "
- Here is his last hope.
- He was always a strange old tuber.
Come on, we may well show
him a little light today.
Nn who want this scrap?
For I do not want it.
Watch as many photos.
Oops! "Crazy Eights".
I do not think we were so smart,
the need for nine in a baseballslag.
It is just a name, Brent.
What is second base?
- What is it?

- It looks like a map.

Looks like a map of the old one

the capsule, we were digging when we were children.

- Do you remember that?

- Not so much.

- Entonsbergs time comes.

- Entonsberg, right?

I have heard that name for a long time ago.

Have you ever read any of his books?

Yes.

What then?

Allihop.

Does that he was working on a new one.

"Karen is rebutted on the ground,

Cyrus a male predators-"

"- press and hold her over her neck. "

"He puts a drill against her skull and

chills in a six-year-old hysterical scream-"

"- while there are interfering

with the gentle sound of the drill. "

No wonder that he was single.

I go in again, you will go out with?

That's not fun.

Sorry.

Is all well?

I have been stressed for some time.

- It's been tough for everyone.

- I have to have a drink.

My fault.

"FRSVINN OUT OF MY HEAD '

- I go not.

- Remember, it was his last wish.

I do not go to the wilderness

to digging up rotting toys.

As exekutor for Testament,

you do not have a choice.

I have. I go home.

Fortunately for you, what name is he?

It is not something something, it's just...

- I have to work.

- Going she does not go so not me.

Quiet! You never cropped up in the

few times we would meet, so.

What you talking about? I always cropped up.

Where were you when my diploma?

Or when Lyle ordained?

- Or at any of my plays?

- Or Beths two sjukhusveckor?

I can tell.

I do not like hospitals.

We can conquer fear, but not alone.

- What was that?

- On the back of the map.

We can conquer fear, but not alone.

We have to go.

We owe it to Brax it.

Well, I go.

The best that it does not take all day.

Okay, I will call Beth.

ENTONSBURG STATSGRNS

POPULATION 1

Poor reception.

- The way to stop certain, so we may well go down.

- What does the map, Jennifer?

Eastbound Lderbcken,

then it should not be so long.

At the barn.

Take the stairs from the barn back
to the second floor.

Then, we go.

Was it ever?

As we went all the way here for?

The Top, it is locked.

Akta for you.

Nice work, Father.

- There was someone on that day were used, right?

- Karen.

- I think that this was mine.

- Here, there are more photos.

Here we are. Who is it?

- It's me.

- There have been a few years?

Who was so small?

Crazy Eights, right?

- Is it she who we are angered gallfeber on?

- I believe it.

B.Y?

- Initials.

- Brax Young.

Hear you, something does not seem to match here.

We should leave her alone.

I mean leave this alone.

Your damned murderers.

Hrde you there?

- I have to have a little air.

- I, too.

- I get shivers.

- Me too, we take it.

One, two, three.

- What is it?

- How did we come to it here?

We are trying to drag it to this rope.

How did you get it there rret?

Excuse me?

- rret?

- There is no...

A small bar, too much to drink.

It is where the rope must be over

No, that is, now we'll run.

I do not know how I got rret.

It happened a few weeks ago...

I began to have nightmares.

If you and me...

We run.

Sorry.

- Oh, my God!

- Fan, we will call someone.

- Who... Who do we call?

- I do not know, someone just.

Wait, wait, we do not know what this
is all about. We do not want to be beskyllda -

- for something we have not done.

- No one will blame you for something.

- We can not leave it only.

- Certainly, we can fan it.

We close the box and sticker from here.

- Right, we fall asleep and lying.

- How can you be so heartless?

I would point out that my career

do not need any skeletons in the closet.

And this is a small bone,

I sticker.

- Do not be a tub fuckin shit.
- I make from here.
- Hear you, he has the keys.
- Come on.
- Brent!
- I will shortly.

It resembles nothing hrute,
middle of the wilderness.

We just go in a circle,
we take a benchmark and run.

Am I crazy or have we drove past the
where the white house three times?

Follow after the woman, she may know the way.

I see her, where is she?

She is here, I saw her go into here.

I hear nothing.

- Are you sure she went into the house?
- Where else would she go?

No power.

Hey!

I saw a kllardrr on the side of the house,
I go and look after a circuit breaker.

Are you following with, Brent?

- What, are you skraj?
- Yes, she goes smarthuvud.

I will check the basement.

Have you fire?

What?

- No, I svedde my finger only.
- You terrified the shit out of me.

Dame first?

- Wayne!
- My God, I think I broke the leg.

God, my leg.

Okay, I download help.

- Gina!
- I will shortly.

Gina!

Leave me not alone in the dark.

Okay.

I will look for power.

- I see an electrical thing.
- A smooth skringsskp?

Call it what you want, what should I do?

There should be a
main switches or something on it.
All or nothing.
Okay, I will be back soon.
Do you make that hrinne?
With all mould, which flows from
the walls here, so this irritates you?
Why make it more toxic?
- Does it feel better if I smoke outdoors?
- Yes.
- Good.
- Thank you.
I had forgotten what torment he is.
Strangely how the brain can help us
to wipe out unpleasant experiences.
Destroy my damned shoes.
Destroy my damned tailored trousers.
Fast middle of the damned wilderness
with Nancy damned Torris and -
- the gang from the damned Beawer.
Bang!
- Excuse me for all "damned", Father.
- Not required.

UTDMA:

Bang.
Hey! Wayne is damaged,
he has probably broken leg.
- Fan, too!
- What happened?
Wayne has broken leg.
I download first aid.
I had no first aid,
so I took what was available in trunk.
What is this?
It is a condemnation that says:
"Unauthorized shot without warning".
- More good news, fear.
- And torches.
Ended on drhuset,
the last four year old, Eric.
- A bad joke, Brent.
- It is not true, or is it?
So small.

- From a child.

- Okay.

What was that?

Can someone help me?

It is stuck.

- We are trapped.

- Fan!

We need to know how the house is built.

For I believe that the basement is off.

- Now, we suicide!

- There is a passage here.

- Can you stand, Wayne?

- Yes.

- What is this place?

- Part of an old house.

Okay, you may well wait with Wayne?

We have to take us from here. Gina goes with me.

Brent and Jennifer, take an extra
flashlight and try over there.

- Lyle? Will you?

- Yes, I will.

Wondering where this leads?

I feel a cold move,

must be an opening here somewhere of course.

Do you know that?

Right here.

It is lit here.

All these windows

have a great damned steel.

Bang!

No success?

All the windows are locked and we found
no door that leads to the outside.

- You then?

- Ibid.

"My nightmares began to slow-

"- when I discovered
my past in the old house. "

"A trunk, filled with memories
I call for nightmares. "

"I saw her there. "

"We were her there.

We left her in the box. "

"At the opening, I gave her life,

and not just her. "

"This place, everything. "

Usually you for a resort, father?

Have...

Has the prayers ever worked for you?

Have you never tried yourself?

Ftt a different

perspective of the world down there.

Okay. Bang! I make from here.

- We can not just leave him there.

- Not, check on me.

We put Waynes

In my church last week...

...hiding someone or something in the darkness.

I thought first

that it was imagination, but...

I do not know.

It is something chasing me.

"They were brother and sister... "
During all these years

It is just numbers that turn up,
one to eight.
Crazy Eights, we cared us not then.
And we do not bother now!
- What do we do with these?

- They are dead, they are dead for the fan.
I do not deny nightmares,
not pretend that it never happened.
It was a cruel
awakening for all of us. Okay?
- But I do not want to die here.
- I know, I know.
We have to be strong, stick together.
And find a way out.

- What is it?
- ... It was just a mouse.
- It was not a damned mouse, Jen.
- It was Brent.
- Brent?
In through the door.
Well, a little bit.
Wondering if she was alive? The girl, Karen?
It was a while ago we fled from here.
She was so small, weak,
so we hit her.
We were her in a trunk with our things
and promised that we would come back.
And we went back, but it
was too late, she was dead, Kvde in...
Brax was a catalyst,
he was the first to remember.

Brax dragged up trunk in the barn.
Anything that connects us to her;
connects us to our debt.
And must be destroyed.

I'm just back, a moment.

- No past, no Karen?

- Quite right.

- What else belongs to her?

- Brent.

Brent had a slangbella.

I saw that he lost it during
grid in the vicinity of the room with -

- portraits in the corridor. No, no.

- It is better that I go.

Be careful only.

Where is it? Where is slangbellan?

Where is it? Come on, come on.

Where is it, there it is. Come here.

I got hold of it.

Secure in that it was a dream?

It has gone too long.

Together forever.
